

SOUTH JERSEY TRAFFIC SAFETY ALLIANCE

SAFETY NEEDS ASSESSMENT SURVEY

OCTOBER 2000

Name _____ Title _____

Organization _____

Jurisdiction _____

- 1) What do you see as being the number one traffic safety problem in your county or community?
- 2) What pedestrian safety issues exist in your county or community and where are they?
- 3) Do you believe there are any safety issues relating to bicycling, skateboarding, rollerblading, or motorized scooters in your county or community? If so what and where?
- 4) Where are the hazardous road intersections or excessive speeding locations in your county or community? Why?
- 5) Does your organization carry out any traffic safety related educational programs in schools -

Grade K-12? If so, what programs, who does them, and what kind of items do you hand out?
(Attach a separate piece of paper if necessary)

6) Do you see any problems special to the transportation of the disadvantaged in your county or community?

7) Do you have problems in your county or community involving older and younger drivers?

8) Do you have any other concerns or comments relating to highway safety needs?

The following questions ask for information regarding data and statistics that could be furnished upon request. You may leave them blank if they do not apply to you. Thank you.

9) What kinds of records or statistics does your agency have that would serve to document your

top safety problem? What form are they in, written or computer?

- 10) Is there a specific road, intersection, or section in your jurisdiction where you have documented the number of crashes and injuries? If so where?
- 11) What pedestrian ordinances exist in your community and who enforces them?
- 12) Who are the community police in your department? What programs do they oversee?
- 13) Other comments.

Please fax to the SJTPO, 856-794-2549 or mail, 1173 E. Landis Ave, Vineland, NJ 08360.
Comments or questions on the survey, contact Tim Chelius, SJTPO Executive Director, 856-794-1941.
